# MANAGEMENT DISCUSSION AND ANALYSIS REPORT

#### **GLOBAL ECONOMIC REVIEW**

Developing countries are in the grip of slow growth of economy and growth remains below 5 percent. On the contrary, recovery in high-income countries is gaining momentum, despite first quarter weakness in the United States. The world economies are expected to grow moderately in 2014.

## INDIA'S ECONOMIC REVIEW

The Indian economy grew at a rate of 4.7% during the financial year 2013-14, being the second successive year of below 5% growth. The economic downfall of recent years appears to have paused, and post elections, with a stable government at the centre the growth is expected to be revived, as business confidence improves. Going ahead, India's key macroeconomic fundamentals look robust and GDP growth in FY 2014-15 is expected to inch upward by 5.5% on improved performance in industry and services.

## INDIA'S NBFC INDUSTRY OVERVIEW

The Non-Banking Financial Companies (NBFCs) of India is integral to the financial framework of the Country and has been instrumental in driving the country's inclusive growth. The persistent challenges in the operating environment resulted in higher delinquency levels for the NBFCs. (Source: ICRA).

# OUTLOOK

The outlook for 2014-15 looks more positive as compared to its previous year, as both business and consumer sentiments have shown the sign of regaining faith and confidence in the market. The global economy is expected to pick up speed in the calendar year 2014 as the year progresses. Overall, there is a need for consistent vigilance on the part of global policy makers to build resilience against financial vulnerabilities.

#### **OPPORTUNITIES**

**Stock Market:** There is an overall improvement in sentiments of investors. The same is reflected in increased inflow of funds from Foreign Institutional Investors in Indian stock market.

IIP (Index of Industrial Production) numbers continue to show dismal performance. Both these factors coupled with weak monsoon in many parts of the country may dampen the growth of economy.

The Companies revenue from operations for the financial year 2013-14 was Rs. 93.29 Crores as compared to Rs. 348.07 Crores during Financial Year 2012-13. This was mainly due to decline in buying and selling of debentures as there was lesser number of attractive opportunities in the current year under review.

# Summary of Significant Accounting Policies

## Note: 1

## a Basis of Accounting :

The financial statements are prepared under the historical cost convention in accordance with the generally accepted accounting principles in India, the Accounting Standards as notified under Companies (Accounting Standards) Rules, 2006, read with general circular 15/2013 of the Ministry of Corporate Affairs in respect of section 133 of the Companies Act, 2013, the Provisions of the Companies Act, 1956 and 2013 and on the accounting principle of going concern. Expenses and Income to the extent considered payable and receivable, respectively, are accounted for on accrual basis, except those with significant uncertainties.

## b Use of Estimates :

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates are made to the best of the management's knowledge considering all necessary information. Differences, if any, between actual results and estimates are recognized in the period in which the results are ascertained.

# c Fixed Assets:

Fixed Assets are stated at cost of acquisition or construction less accumulated depreciation. Cost includes all incidental expenses related to acquisition and installation, other pre-operative expenses and interest in case of construction.

The carrying amount of cash generating units / asset is reviewed at the balance sheet date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount is estimated at the net selling price or value in use, whichever is higher. Impairment loss, if any, is recognized whenever carrying amount exceeds the recoverable amount.

#### d Depreciation:

Depreciation on Fixed Assets is provided on written down value method at the rates specified in Schedule XIV to the Companies Act, 1956.

Depreciation on Additions / Deletions of assets during the year is provided on a pro-rata basis.

#### e Investments :

Investments are classified into long term and current investments.

Long term investments are carried at cost. Provision for diminution, if any, in the value of each Long Term investment is made to recognize a decline, other than of temporary nature.

Current investments are carried individually at lower of cost and fair value and the resultant decline, if any, is charged to revenue.

#### f Inventories :

Valuation of stock in trade of Shares is carried out at lower of its cost and quoted market price, computed scriptwise. Cost is assertained on First-in-First-out basis

# g Equity Derivative Transactions :

Profit / (Loss) in respect of Equity / Index Futures / Options are accounted in the Statement of Profit and Loss on the expiry of the respective contract or on the same being squared - off In case of unsettled contracts as at the Balance Sheet date, mark to market difference is recognised in the case of losses and ignored in case of profits, considering consetvative principal.

#### h Revenue Recognition :

Revenue on accounts of sale of shares is recognised upon transfer of significant risk and rewards to the buyers.

Revenue from interest income is recognised using the time proportion method based on the rate implicit in the transaction.

#### i Employee Benefit:

Expenses and liabilities in respect of employee benefits are recorded in accordance with Revised Accounting Standard 15 - Employee Benefits:

#### i) Earned Leave

Provision for leave encashment is made on the basis of eligible leave balances as on Balance Sheet date. An employee can avail accumulated leave at any time during the subsequent year, however, the Company has no scheme for encashment of the leave.

#### ii) Other Short Term Benefits

Expense in respect of other short term benefits is recognized on the basis of the amount paid or payable for the period during which services are rendered by the employee.

#### j Borrowing Costs :

Borrowing costs that are directly attributable to long term project development activities are inventorised as part of project cost. Other borrowing costs are recognized as an expense in the period in which they are incurred.

Borrowing costs are inventorised as part of project cost when the activities that are necessary to prepare the asset for its intended use or sale are in progress. Inventorisation of Borrowing costs are suspended once development work on the project is interrupted for extended periods.

#### k Leases :

Lease arrangements where the risks and rewards incidental to ownership of assets substantially vest with the lessor are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

#### I Taxation :

Provision for the current Income Tax is made on the basis of the estimated taxable income for the current accounting year in accordance with Income Tax Act, 1961.

MAT credit asset is recognized and carried forward only if there is a reasonable certainty of it being set off against regular tax payable within the stipulated statutory period. Deferred Tax resulting from timing differences between book and tax profits is accounted for under the liability method, at the current rate of tax, to the extent that the timing differences are expected to crystallize. Deferred tax assets are recognized and carried forward only if there is a virtual/reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each balance sheet date.

#### m Provisions and Contingent Liabilities :

Provisions are recognised in the accounts in respect of present probable obligation, the amount of which can be reliably estimated. Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company.
